

## From the Toolkit: INNOVATION

### ***Innovation and Business Growth in Full Arch Dentistry***

A Panel Presentation

**Thursday 12:45 - 1:45 PM**

**Alan Banks; Anthony Arcari, CDT; Dr. Daniel Domingue**

**Moderator: Sean Siegel**

This panel presentation will explore the latest trends and techniques for treating the implant-supported full-arch patient. Our esteemed panelists will share both a laboratory and clinical perspective on what's hot in this growing and technology-filled market segment.

Since 2001, Alan has served the dental community through forward-thinking, digital, international companies. As president of GuidedSMILE, Alan manages all aspects of the company. His teams specialize in many areas of dental laboratory technology, with special focus on today's digital technology, full arch reconstruction, guided surgery, research and development, and optimal clinical solutions. Alan provides technical support to general dentists and specialists throughout the world.

Anthony Arcari graduated from St. Anselm's College in 1988 and entered into the family dental laboratory business started by his father, Anthony Arcari, Sr., in 1970. Originally established to manufacture removable prosthetics, Anthony worked as an apprentice and soon after, introduced fixed and implant prosthetics. In 1993, Anthony earned his CDT certificate and continued to transform the business. He has been the president of Arcari Dental Lab since 1998 where he has increased EBITA to nearly 35%.

Dr. Daniel Domingue graduated from Louisiana State University School of Dentistry, received 3-year advanced training at Brookdale University Hospital and Medical Center in New York City, where he served as Chief Resident of the Dental and Oral Surgery Department. After residency and during his first years in private practice Dr. Domingue was awarded the Diplomate from the American Board of Oral Implantology in Las Vegas, NV, the highest award possible for a general dentist practicing implantology. He was also recognized as the youngest recipient of this award in the entire world.
